## PROFESSIONAL EXPERIENCE

### ➤ *Insurance Sector:*

- **MÜNCHENER RÜCK, Sucursal España y Portugal, S.A.**, since January 1987 until the present date. I was first engaged by the Engineering Department and took over the management of it in 1999.

#### *Main responsibilities:*

- Industrial risks surveyor.
- From 1991 onwards underwriter with full powers of representation for Spain and Portugal and authorised signatory for engineering branches (Contractor's All Risks, Erection All Risks, Decennial Liability, Machinery Breakdown and electronic Equipment).
- Claims consultant for Decennial, Construction and Erection losses.
- In 1999 I was appointed Assistant Manager for Münchener; Sucursal España y Portugal, S.A., taking charges of the Engineering Department (drawing up strategic plans, facultative business, treaty renewals, services design, etc.) until the global restructuring was implemented in 2002 when the Property Division was created (Fire + Engineering), maintaining the technical and operational responsibility as Engineering Senior Underwriter.
- As Senior U/W, from 2001, responsible for maintenance and development of technical guidelines in risks evaluating and pricing in Engineering Insurance area. Advice, training and coordination of underwriting teams.

#### *Other functions:*

- Coordination of training seminars for insurance companies and loss adjusters in Madrid and Munich.
- Drawing up manuals and analyses of conditions for CAR and Decennial clauses and wordings.
- Member of the Group's international commission (representing the Spanish branch) for the preparation of publications and common directives relating to Decennial Liability Insurance.
- Coordinator of the UNESPA Working Group for developing a claims coding system for Decennial losses.
- Member of the UNESPA Working Groups for developing CAR and Decennial products
  - o General Conditions (including adapting the General Conditions to the LOE)
  - o Technical Control Standards Reports.
  - o Analysis of triennial cover possibilities.
  - o Adapting the General Decennial Conditions and Technical Control Reports to the CTE.
  - o Coordinator of the Working Group for coding decennial claims.
  - o Statistics.
- Representative of the insurance sector on the 'Comité de Evaluación y Reconocimiento (CER) de los Organismos de Control Técnico' (in UNESPA-CEPREVEN), and subsequently in various joint commissions with the control companies' associations (AIC, AOCTI).

➤ **Construction Sector.**

- **PROBISA (Productos Bituminosos, S.A.)**, from September 1984 until January 1987, in the Slurry Works Division. Manager for Barcelona and later on a national level based in Madrid.

➤ **Liberal professional practice:** (sporadically between 1990 and 1997).

Design of civil works, among others:

- Water supply and distribution projects (various towns in the province of Soria)
- Project "Acondicionamiento de la Travesía de Ágreda" (Soria).
- Project "Nuevo acceso a Arenas de San Pedro" (Ávila).

## **ACADEMIC EDUCATION**

### **Ingeniero de Caminos, Canales y Puertos. Speciality Transports.**

Higher College of Civil Engineering, Madrid Polytechnic University (ETSICCyPM).

Graduated in June -1984.

**Profesor 'Ad-Honorem' in the 'UD – Proyectos Fin de Carrera'**, Higher College of Civil Engineers of Madrid (ETSICCyPM).
